ACADEMIC EARLY WARNING SYSTEM

Submission and Screenshot Guide

Card 12 | Guide - capture actual screenshot

Kini ang guide para sa Card 12. Wala pay actual Trello screenshot kay wala pa kita nag-capture sa inyong live board. Ayaw isumite kini isip kapuli sa board screenshot.

Unsa ang i-upload sa Card 12

1. Kini nga guide kung gusto ninyo gamiton isip checklist.
2. Ang presentation script sa samang folder.
3. Ang ACTUAL screenshot nga inyong kuhaon sa Trello human ma-update ang board.

Pagkuha sa actual board screenshot

Open your shared board. Ensure its title, list names and cards are readable. Use Windows Snipping Tool (Win+Shift+S), capture the board and save as AEWS_Trello_Board_Screenshot.png. If one image is insufficient, take additional readable views, including one open card with its details. Do not use a generated sample board as evidence.

Public-link check

Remove confidential content before public visibility. Open the copied board URL in a signed-out/private browser and confirm it is accessible. Check attachments too. Follow the instructor-approved alternative if university policy prohibits public access.

Individual submission

Each member individually submits the public group-board link and board screenshot using the instructor-specified portal. The PDFs/XLSX files belong as attachments inside their relevant cards unless the instructor requests otherwise.

Name / team / actual submission deadline

Verified public Trello board URL

Actual screenshot filename(s)

Board checked signed out by / date

Individual submission confirmation / date / receipt reference
