ACADEMIC EARLY WARNING SYSTEM

Start Here: What to Attach

Upload and completion guide

Kini ang file-to-card guide. Ang folder number pareho sa inyong 12 ka Trello cards. I-open ang card, pilia Attachment/Attach, ug upload ang files gikan sa iyang folder.

Planning documents are drafted. Result PDFs have editable yellow fields; tests are Not run. Enter real names, dates, results and evidence after execution. Do not submit unreviewed drafts as completed testing.

Still supplied by your group

Actual Trello board screenshot: capture after board setup (Card 12). Actual AEWS-generated report export: generate during testing (Card 9). Actual test screenshots: capture during execution and attach to the relevant card. No generated imitation evidence is included.

Synthetic fixture sequence

Card 5: create a synthetic class; import Synthetic_Classlist first, Synthetic_Gradesheet second, Synthetic_Attendance third. Five invented students use reserved example.com emails; intercept/disable outgoing mail. Expected MTG values: 2.25, 2.49, 2.50, 3.00, 5.00. Expected attendance: 100%, 80%, 60%, 0%, 100%. Use the Card 6 workbook for comparisons. Negative files are deliberate invalid inputs. Parsing has not been live-tested against your deployment.

Use and save fillable PDFs

Open in a PDF viewer supporting forms, enter the yellow fields and Save As. Reopen to verify values remain. Attach your completed copy and real evidence. Use a separate copy for additional runs. Never replace expected results with actual results.

Team setup

Use actual member names in Trello Members and real deadlines in Dates. No M1/M2 placeholders are needed. If a case fails, record Fail and link a bug; do not move final approval to Completed while blockers remain.

Assessment source

IT143_CO3_MajorAssessment_Guidelines.pdf, pages 1-3, and Rubric for Group Activity using Trello.pdf, page 1. The guidelines request relevant attachments, not these exact filenames. Each member submits the public board link and screenshot individually. All public evidence must be sanitized.
